

HITH Hospital In The Home

Treating patients safely at home

HITH provides care in a patient's permanent or temporary residence for conditions requiring clinical governance, monitoring and/or input that would otherwise require treatment in the traditional inpatient hospital bed.

Referral is easy!

Call

- ✓ Acute hospital substitution service
- ✓ Safe and quality acute care delivered in patient's homes by a highly skilled workforce
- ✓ Delivers comparable care up to twice daily
- ✓ We will keep you informed during your patients care journey

Patient eligibility

- Patients that without HITH would remain in hospital
- Patients that require daily treatment or assessment
- Patient care can be safely provided and managed in the patient's permanent or temporary residence

Ineligible patients

- Patients that don't require daily assessment or treatment, or require more than twice daily visits
- Patients with an unsafe residence
