Meeting Date: Friday 1 March 2019

The Advancing Kidney Care 2026 Collaborative (the Collaborative) is a partnership established under the sponsorship of the Queensland Health Service Chief Executives Forum.
The Collaborative’s role is to lead implementation of the strategic directions for kidney health and care in Queensland as identified through a state-wide review and planning process.
The membership of the Collaborative comprises consumers, clinicians, executives of Hospital and Health Services and the Department of Health.

- The Collaborative held its sixth meeting on 1 March 2019.
- Discussions at this meeting included:
  1. The seven clinical working groups continue to progress work to develop standardised patient pathways, resource profiles, quality statements and outcome measures. It is expected that the draft document will be provided for broad stakeholder consultation in mid-May 2019.
  2. The information system workstream will look to recruit a small team, including a Project Manager and Business Analyst, to support Magid Fahim as the workstream lead.
  3. The Collaborative will continue to look for opportunities to engage with the Aboriginal and Torres Strait Islander Community Controlled Sector and Aboriginal and Torres Strait Islander health leaders, including:
     a. Meeting with Mark Wentiong, an Aboriginal and Torres Strait Islander health Ministerial Champion; and
     b. Meeting with Neil Willmett, CEO of the Queensland Aboriginal and Islander Health Council (QAIHC).
  4. The AKC2026 website will be updated in the coming month to provide an update on the activities of the Collaborative.

The next meeting of the Collaborative is on Friday 5 April 2019.

Any queries about the Collaborative and its work priorities can be emailed to AKC2026Collaborative@health.qld.gov.au.
